Idea for a research project

Step 1.
Literature search and understanding of the rationale.

Step 2.
Identification of the key unknowns and research questions.

Step 3. Aims and Objectives

Step 10. Undertake your research!

Step 9. Risks and risk mitigation

Step 4. Identification of hypotheses to be tested

Step 8. Workflow model

Step 5. Identify key deliverables

Step 7. Timeframe for research

Step 6. Identify key resources

OR the key questions

- ▣ WHAT?

- ▣ WHY?

- ▣ HOW?
