<p>The Digitised Parliamentary Database (in Hungarian: Digitalizált Törvényhozási Tudástár = DTT) project of the Library of the Hungarian Parliament will be realized in 2010-2012 under the aegis of the Electronic Administration Operative Programme of the New Hungary Development Plan, as supported by the European Union and co-financed by European Regional Development Fund. The objective of the project is to digitise approximately 2 million pages of historical parliamentary records, official gazettes, legal, historical and political literature (books and periodical). The services of the planned Internet portal site where the digitised material can be accessed are meant to help legislation and the work of MPs and experts of the Assembly. Further objectives of the DTT project are to arrange the digitised records into a database and make them accessible through an integrated portal site; make records in the public domain fully accessible for Internet users; support education, research and the library information service, and to preserve the stock of the library. The digitised collection will be published on the Internet as of 30 November 2012.</p>	<p>www.ogyk.hu/dtt</p>
The library is digitising materials that is free of copyright: the parliamentary Hansards; and the historical material.	
The Library of Parliament is undertaking a digitalisation of Parliamentary documents approx. for the years 1960-1990. The documents will be available and searchable for clients as soon as the project is finalized. A project aiming at the digitalisation of interviews with former MPs is also taking place at the Library of Parliament.

Several digitisation projects of different sorts. Mass digitisation projects: law curator proposes content for digitisation based on knowledge of existing digital availability and audience research. Individual projects: law curator helps to identify items in collection, to guide academics through the bureaucratic process, and to provide support relating to the nature of the content and other content holders.
